Life sciences Faculty

Master degree instruction for courses registration

Greeting and good luck in the up coming year!!
All the information can be found in the In-bar system and on the faculty website:

http://life-sciences.biu.ac.il/node/168

Graduate students life sciences Dept: Ls.Graduates@biu.ac.il
Academic consultant Dr. Rotem Efrony: rotem.efrony@biu.ac.il

MSC Life science with thesis
New students should be registered under the 80401 code (except the 4 programs below)

Biotechnology 80422
For students with BSc in Biotechnology, includes mandatory courses for the program.

80423 computational biology Bioinformatics
Please pay attention to the program’s special requirement. The program is for BSc in computational biology holders or applicants who performed the required additional courses. The student must join a research lab in the field of computational studies

80430 Nanotechnology program —only for research done in the Nanotechnology institute for more information please address the nanotechnology office

80405 Volcani joint program - as of 2018-9 registration is to the 80405 program. Only for research done in the Volcani institute

MSc students must complete 12 annual hours (not including general studies/Judaism studies) Waived Tuition is only for the above amount of hours, any deviation from that will cause student’s payment.
Every year please enroll the following courses:

809000 (colloquium- the faculty weekly seminar)

Please pay attention to the following obligatory courses:

80801

80534 (lecture and exercise – there is a group of exercise in English no. 04)

2 seminars (each is 0.5 annual hour)

Students who would need access to the Animal house for their research will need to enroll course no. 80517.

Best regards,

Dr. Rotem Efrony
